#### **INCORPORATED**

#### YOU

A DISCOUNT OF 33-1/3 PER CENT on the prices in this list. Packing charged at cost, as usual.

The Main Offices of Bay State Nurseries, Incorporated, are located in North Abington, Massachusetts, 18 miles south of Boston, on Motor Route 58, and less than a mile from the main highway running from Quincy to Bridgewater and the Cape. To reach us by motor from Boston, drive to or around Quincy by the Southern Artery; then proceed directly south through Weymouth and South Weymouth until you see our sign at the fork of the road. Turn to the left on Route 58. You cannot miss our nurseries one-half mile farther on.

Our office and shipping departments are at 678 Adams Street, North Abington, Massachusetts, about one mile north of the car line and railroad station. The station is on the Boston Division of the N. Y., N. H. & H. Railroad, half way from Boston to Plymouth. Our perennial gardens, however, are located on North Avenue, between North Abington and Rockland. Telephones: North Abington office—Rockland 26, 27, 28.

The offices and display grounds of Wyman's Framingham Nurseries, division of Bay State Nurseries, Incorporated, are located in Framingham, Massachusetts, 20 miles west of Boston on the Boston-Worcester Super Highway. Three main highways lead to our grounds—The Boston-Worcester Super Highway, Route 115; The Boston-Framingham Road, Route 23; and the Framingham-Saxonville Road. This latter has "bus" service. We are North of the center of the town. The railroad station is on the main line of the Boston & Albany Railroad and the N. Y., N. H. & H. R. R. Telephone: Framingham office—Framingham 6191.

#### **OUR LOCATION**

The Main Offices of Bay State Nurseries, Incorporated, are located in North Abington, Massachusetts, 18 miles south of Boston, on Motor Route 58, and less than a mile from the main highway running from Quincy to Bridgewater and the Cape. To reach us by motor from Boston, drive to or around Quincy by the Southern Artery; then proceed directly south through Weymouth and South Weymouth until you see our sign at the fork of the road. Turn to the left on Route 58. You cannot miss our nurseries one-half mile farther on.

Our office and shipping departments are at 678 Adams Street, North Abington, Massachusetts, about one mile north of the car line and railroad station. The station is on the Boston Division of the N. Y., N. H. & H. Railroad, half way from Boston to Plymouth. Our perennial gardens, however, are located on North Avenue, between North Abington and Rockland. Telephones: North Abington office—Rockland 26, 27, 28.

The offices and display grounds of Wyman's Framingham Nurseries, division of Bay State Nurseries, Incorporated, are located in Framingham, Massachusetts, 20 miles west of Boston on the Boston-Worcester Super Highway. Three main highways lead to our grounds—The Boston-Worcester Super Highway, Route 115; The Boston-Framingham Road, Route 23; and the Framingham-Saxonville Road. This latter has "bus" service. We are North of the center of the town. The railroad station is on the main line of the Boston & Albany Railroad and the N. Y., N. H. & H. R. R. Telephone: Framingham office—Framingham 6191.

#### THE PLANTING SEASON

Transplanting can be done successfully as soon as the frost is out of the ground in the spring until early June. Evergreens and herbaceous perennials can be successfully transplanted until early July. We usually begin to dig about March 20th.

Evergreens may be transplanted successfully during August, September and October, herbaceous perennials during September and until the middle of October, and trees and flowering shrubs transplant best during October and November.

#### SHIPPING DIRECTIONS

In ordering nursery stock our customers are requested to state explicitly the mode of conveyance by which they wish their stock forwarded. We make shipments by express, freight, or motor truck. The price for all our material is at the nursery and does not include delivery. We can make shipment by motor truck at a moderate charge, provided the order is large enough to make a truckload. When no route or method is designated, we exercise our judgment. In no case do we assume any responsibility after packages are shipped, except for our own mistakes. When losses occur by detention or mishandling, claim should at once be made on the transportation company by the consignee.

#### **CLEAN STOCK**

In addition to owning one of the finest spraying outfits manufactured, we maintain an inspector formerly in the employ of the U. S. Government, who attends to the spraying at the proper season and also inspects all stock before it is shipped. Our customers are in this way assured of receiving clean stock, free from any injurious insect pest or disease. A certificate of inspection accompanies every shipment.

#### **PLANT NAMES**

We have endeavored to list our plants in accordance with the names as given in "Standardized Plant Names," which has been officially adopted by the American Association of Nurserymen.

If you have difficulty in finding in our price list any varieties you wish, write us and we will give you an immediate reply as to whether or not we can furnish them.

#### CONDITIONS OF SALE

1. The articles herein listed will be furnished in accordance with the following schedule:

1 to 4 plants of one kind will be priced at the each rate, whatever the aggregate of a list made up in numbers of 5 plants of a specific sort may be.

5 to 24 plants of one kind and size will be priced at the ten rate.

25 or more plants of one kind will be furnished at the hundred rate, when hundred rates are given.

FROM THIS SCHEDULE WE WILL NOT VARY because of the fact that considerable time is required to assemble an order made up of small lots of a kind that are scattered over the nursery.

#### CONDITIONS OF SALE—continued

- 2. We make no charge for packing retail orders, except on very large evergreens and large shade trees.
- 3. We give no warranty, expressed or implied, as to quality, description, productiveness, of any nursery stock that we sell. The only guarantee that we make is that our stock is alive at time of shipment and true to name. No complaints will be considered that are not made within ten days after receipt of order. Any stock ordered from this list, found untrue to name, will be cheerfully replaced at the first favorable opportunity for planting, after it has been found not as ordered.
- 4. Higher prices will be charged for specimens of higher quality selected by the customer, or his representative.

#### **TERMS**

Our terms are cash, unless by special agreement. Charge accounts may be opened upon receipt of the names of two or more parties with whom the customer has credit relations, or by sending us bank or trade references, allowing us time for investigation. We can ship by express C.O.D. when desired, with charges for collection added to the bill—provided 20 per cent of the amount of the order accompanies the same as a guarantee. All accounts unpaid after the due date will be subject to sight draft without further notice.

#### PLACING ORDERS

Orders may be sent to either our office at North Abington, or to Framingham, as you may prefer or find more convenient.

In filling orders we shall select the best material from both nurseries. Daily truck service is maintained between the two shipping headquarters, bringing to each place any particular items from the other establishment required for filling orders.

## **Evergreen Trees**

Our Evergreens have the quality necessary to provide excellent IMMEDIATE EFFECT—and heavy root masses to promote TRANSPLANTING SUCCESS.

We dig our Evergreens with a ball of the earth in which they are grown, and wrap them in burlap WITHOUT additional charge.

#### TAXUS—continued canadensis stricta

Each Per 10 Per 100 Dwarf Hedge Yew

The only satisfactory evergreen for dwarf edging hedges in severe New England climate. The best substitute for Dwarf Boxwood. Hardy, really dwarf, fine texture, dark, easily grown, shears perfectly, thoroughly tested for past fifteen years. Also excellent for use in general plantings of dwarf evergreens.

#### **HYBRID RHODODENDRONS—Seedlings**

The Hybrid Rhododendrons are beautiful, strong, bushy plants. We offer them in mixed colors only, containing such shades as red, pink, and lavender. These plants are grown from seeds of Hybrid Rhododendrons, and are much hardier than the grafted hybrids.

| 12 to 15 in             | 1.80  | 16.20 | 150.00 |

The native Carolinianum, Catawbiense and Maximum types we offer are all nursery grown, healthy and vigorous. We can, through our collector, furnish these types in collected plants of any quantity desired. Write giving sizes and quantities wanted and we will make special quotations.

#### **PEAT MOSS**

The most satisfactory mulch for Rhododendrons or broadleaved evergreens of any type is Peat Moss. This we can supply in large full-sized bales at \$3.00 each, \$27.00 per ten. We can also supply bags for those who want only a small amount at 50c each.

### **Deciduous Trees**

In compiling this list, we have endeavored to include only such varieties of stock as we have now in our nurseries, in sizes and quantities offered. In filling orders we shall grade stock according to these specifications. Should orders be received for sizes not found in this list, or should any specified grade be exhausted, we will send the nearest size we have in stock at the time the order is received and charge accordingly UNLESS OTHERWISE ADVISED.

#### **MALUS**

#### (The Flowering Crabs)

We specialize in growing semi-matured specimens of the several MALUS species. Unlike the usual run of stock offered, these are mostly old trees, several times transplanted, and heavy enough to give a worthwhile immediate effect. The degree of heaviness or bushiness of each sort is indicated by the letter X.

Most of the heavier trees are growing in our nurseries at Framingham (in case you wish to see them), but you do not have to consider in which nursery they are growing when placing the order. We will attend carefully to the matter of assembling the items from both nurseries in filling orders.

| The following description | is giver |          |         |

The following description is given by the late Dr. E. H. Wilson, Keeper of the Arnold Arboretum, who discovered this tree: "Rigid of branch, with wands of blossoms often 15 ft. long, the Chinese M. theifera is the very quintessence of Crabapple loveliness. It is a small tree, seldom exceeding 20 feet in height, with sparse, upright and spreading, rather zigzag branches. When in blossom the whole branch is transformed into a floral plume into which it is impossible to thrust a finger without touching a flower. The petals are reddish pink in the folded bud, white or delicately stained with pale pink when fully expanded."

## **Deciduous Shrubs**

Our shrubs are grown with plenty of space in the nursery rows to insure good, vigorous growth, and they lift with strong roots. They are healthy and make quick development after planting.

#### ÁZALEAS

Our stock of Azaleas is all NURSERY GROWN, several times transplanted, having heavy masses of fibrous roots which insure superior results to the planter. They should not be compared with collected stock frequently offered.

All Azaleas will be balled and burlapped (B&B) without extra charge.

| AZALEA arborescens       |             | Sweet        | Azalea |

## Hardy Roses

Strong field grown plants, 2 years old, at .50 each for less than 5 of one kind; 5 or more of one kind at \$4.50 per 10; unless otherwise noted. 10 or more roses of our own selection, will be furnished at .45 cents each.

If we are out of the variety ordered, we shall select the variety most closely resembling it UNLESS OTHERWISE ADVISED

VISED.

We grow our roses right here at our nurseries, and they are fine, well-rooted, hardy plants.

#### HYBRID TEA ROSES

**Betty Uprichard**—Copper-red buds, with semi-double brilliant orange-carmine flowers.

Columbia—Beautiful rose-pink, perfectly formed blossoms.

Dame Edith Helen—A new variety with large blossoms of pure pink, \$.75 each.

**Duchess of Wellington**—Large buds of golden orange opening to saffron colored.

Edel—Large pure ivory white.

Etoile de France-Vivid cerise centered crimson blooms.

**Etoile de Holland**—Brilliant red flowers with enormous petals. \$.75 each.

General MacArthur—Large velvety-scarlet.

**Gruss an Teplitz**—Scarlet, shading to velvety crimson.

Independence Day—Flaming yellow buds shaded copper.

Irish Hope—Large, rich-crimson, very fragrant flower with disease-resistant foliage. \$1.00 each.

Jonkheer J. L. Mock—Very large carmine flower with inner side of petals silver-pink.

Kaiserin Auguste Viktoria—Soft creamy-white.

Killarney Queen—Deep shell pink long pointed buds, improved Killarney.

Killarney White—Pure white, long pointed buds.

**Lady Alice Stanley**—Outside of petals coral-pink, inside pale flesh-pink.

**Lady Margaret Stewart**—Copper-orange buds, opening to bright golden flowers shaded with orange and red. \$.75 each.

Lieut. Chaure—Profusive blooming, dwarf, bushy plant with extra well shaped cupped blooms of strong crimson color.

Los Angeles—Bright flame pink, shaded with gold.

Miss Willmot—Perfectly formed large white flowers with a touch of faint pink.

Mme. Butterfly—Large brilliant pink flowers suffused with apricot and gold.

Mme. Caroline Testout—Velvety rose color with lighter edges.

Mme. Edouard Herriott—Coral red, shaded scarlet.

Mrs. Aaron Ward—Coppery orange in open bud, pinkish fawn when full.

Mrs. Erskine Pembroke Thom—Bright canary yellow, deep yellow center. \$.75 each.

火

#### **HYBRID TEA ROSES—continued**

Mrs. Henry Bowles—Clear pink with well-formed buds. \$.75 each.

Mrs. William S. Egan—A superior pink rose of deep flesh color.

Ophelia—Salmon flesh, shaded with rose.

Padre—Copper-scarlet with bright yellow at base of petals.

President Hoover—Maroon shading to orange and gold.

**Radiance**—Brilliant carmine-pink, with salmon-pink and yellow shadings.

Red Radiance—Similar to Radiance but color is deep red.

Rev. F. Page Roberts—Golden yellow blooms stained with copper on outer petals.

**Souvenir de Claudius Pernet**—A new rose of a beautiful sunflower yellow, with brilliant green foliage and few thorns.

**Talisman**—Sensational new brilliantly colored rose of bright yellow, gold and pink. \$.75 each.

**Ville de Paris**—Round buds of clear yellow; small, dark foliage. \$.75 each.

Wilhelm Kordes—Long pointed buds, salmon-red and double high centered flowers, salmon-pink.

William R. Smith—Creamy white, suffused with rose-pink.

**Willowmere**—Rich shrimp pink, shaded yellow in center and carmine pink at the edge of petals.

#### HYBRID PERPETUAL ROSES

The price is .50 each, \$4.50 per 10 except as noted

Generally speaking, the Hybrid Perpetual Roses are hardier than the Hybrid Tea Roses, but do not bloom over as long a period during the Summer.

Frau Karl Druschki-Pure white.

General Jacqueminot—Bright scarlet crimson.

Harison Yellow—The purest yellow rose.

Mme. Albert Barbier-Soft, fawn-yellow.

Mme. Plantier—Small, pure-white; abundantly produced.

Mrs. John Laing—Large, soft pink; fragrant and steady bloom.

Paul Neyron—Deep rose-colored flowers, very large.

**Ulrich Brunner**—Cherry crimson, large.

#### **POLYANTHA ROSES**

The price is .50 each, \$4.50 for 10, \$42.00 for 100. Except as noted.

Chatillon—Beautiful pink.

Crimson Baby Rambler.

Echo-Soft delicate pink.

Ellen Poulson—Bright rose-pink.

Gloria Mundi—Orange scarlet.

60c each, \$5.40 for 10

**Ideal**—Velvety dark red.

**Kirsten Poulson**—Very large single light red flowers in great sprays.

Lady Reading—Bright red.

La Marne-White, pink edges.

Maud D. Gladstone—Double pink, shaded coral.

### POLYANTHA ROSES—continued

Miss Edith Cavell—Scarlet red.
Orange Perfection—Orange scarlet.
Orleans—Light pink, white center.
Triomphe Orleanais—Bright cherry-red.
White Baby Rambler.

## Herbaceous Department

We are growing herbaceous perennials at both our North Abington and Framingham Nurseries. The larger variety and quantity by far is grown at our North Abington nurseries, where we have a separate department of over forty acres of hardy perennials.

We extend a cordial invitation to those who are interested, to visit our perennial department, see our propagating greenhouses, our large stock of perennials and our facilities for handling orders.

We are continuing to offer perennials in quantities of three, instead of singly, as we believe generally speaking it isn't practical to get a satisfactory garden effect by using one plant of a kind. Please remember that five plants or more of one variety will be priced at the ten rate and that twenty-five or more of one kind will be entitled to the hundred rate. In instances where only a single plant is wanted, the price will be one-third the rate for three.

The material we grow is strong field grown stock, with the exception of some varieties which transplant better by being grown in pots.

As in the case of evergreens and flowering shrubs, orders may be placed for perennials at either our North Abington or our Framingham offices, and we will attend to the prompt filling and careful assembling of your orders.

## Hardy Perennials, Ferns and Grasses

Varieties marked with an asterisk (\*) are particularly adapted for the rock garden.

Full descriptions will be found in our Handbook of General Information.

See CONDITIONS on page 2.

# Betscher's Hybrid Hemerocallis

These Hemerocallis are immensely better than the varieties commonly grown. They are all choice later flowering Hybrids of great beauty and real value.

## Iris

We have upwards of one hundred and fifty varieties in our collection, including all classes in both named varieties and separate colors. For descriptions see our handbook.

#### IRIS

| *Alpine—Early flowering Iris, March |      |      |
|-------------------------------------|------|------|
| to May, 6 to 9 in.                  | 1.05 | 2.70 |

### Varieties:

| Armee d'Orient | Graminea | Niobe                   |
|----------------|----------|-------------------------|
| Canary Bird    | Lobelia  | Orange Queen            |
| Dixmude        | Minstrel | Petite Amie Schneekuppe |

### GERMAN IRIS-TALL BEARDED IRIS

In the following list of Tall-Bearded Iris (German Iris) are included a number of the older varieties, as well as many of the newer sorts. Many of the older varieties have certain characteristics that make them still greatly desirable, and we have added in the past few years a number of newer varieties that we consider of real value. Descriptions of these Iris will be found in our Descriptive Handbook.

| Admiral Togo                    | .60  | 1.50 | 12.00 |
